

Ai Testified Private Limited

The Opportunity We are looking for a dynamic Technical Lead to join us on a full time basis. This is a fantastic opportunity to be a part of India's First AI driven Adaptive Assessment Start-up whilst being instrumental in the growth of a new service offering. We're looking for a passionate Software Engineer to design, develop and install software solutions.

Job Type - Technical Lead Key Responsibilities –

1. Conducting analysis of website and application requirements.
2. Writing back-end code and building efficient PHP modules.
3. Developing back-end portals with an optimised database.
4. Responding to integration requests from front-end developers.
5. Finalising back-end features and testing web applications.
6. Updating and altering application features to enhance performance.
7. Proven work experience as a software engineer.
8. Must have proven experience in both CodeIgniter and Laravel
9. Must have good knowledge and experience in JavaScript and jQuery.

Skills and Attributes for Success –

- 1.Strong knowledge of PHP web frameworks like Laravel and CodeIgniter.
2. Understanding of MVC and HMVC design patterns.
3. Understanding of front-end technologies, such as JavaScript, HTML5, and CSS3.
4. Understanding of object-oriented PHP programming.
5. Proficient understanding of code versioning tools, such as Git.
6. Good knowledge of SQL and related databases, with a preference for those with MySQL experience.
7. Ability to manage the project. 8. Strong analytical and problem-solving skills.
9. Knowledge of AngularJS would be an advantage

Education: B.Tech / M.Tech in Computer Science and Engineering/BCA/MCA

Experience: 5-9 years of experience as Web Developer (Mandatory)
