

JOB DESCRIPTION – Supply Chain Manager

Job Title: Supply Chain Manager

Type: Full Time

Location: IIT Kanpur, Kanpur, UP

Experience: 1+ Years

About Us

Lenek Technologies aspires to create an ecosystem of research and development around medical technologies in India as well as strengthen its supporting domestic manufacturing sector. The company's vision is to take quality healthcare to the masses by addressing roadblocks with innovative solutions through technology. Currently, Lenek Technologies is incubated at SIIC, IIT Kanpur and is operating from IIT Kanpur itself. The company is involved in development and commercialisation of medical devices and technologies. For more details about company operations, you can refer our website or LinkedIn page or directly reach out to us via mail/call. We are looking for individuals who share similar mind-set and attitude to get the things done.

Job Role

In this role, you have the opportunity to contribute to Lenek' mission to continuously improve people's life through innovation across the Healthcare continuum. You will be supporting these goals by defining, designing and verifying different architectures while you continuously focus on improving the effectiveness & efficiency, as novel medical equipment requires increased levels of reliability and performance.

Key Responsibilities

1. Identify suitable vendors/partners, negotiate with vendors/partners to secure the best prices for quality products and services, and ensure that vendors fulfil their contractual obligations.
2. Conducting exploration on available vendors to determine which vendors offer the best product quality.
3. Developing and sustaining long-standing relationships with vendors
4. Coordinate cross-functional teams, and communicate with internal and external partners, while meeting tight deadlines.

Skills Required

1. Must have experience in related work and in interaction with external stakeholders.

2. Demonstrates problem-solving and idea generation skills
3. Basic project management, good organization and planning skills
4. Must be a proactive, Team Player & also shoulder individual responsibility
5. Microsoft office skills with good Excel knowledge, power point presentation
