Purpose of the job

We are seeking a talented and experienced professional for MedTech CoE to join our team. This position will lead MedTech CoE and oversee the development, implementation, and management of cutting-edge medical technologies and innovations. This role is responsible for setting strategic direction, driving innovation, and ensuring the delivery of high-quality medical tech solutions that align with the organization's mission and goals. The successful candidate will collaborate with cross-functional teams, manage resources, and lead efforts to stay at the forefront of medical technology advancements.

Main duties

The key aspects of the role will involve:

- Develop and execute MedTech CoE's strategic vision.
- Lead and mentor a multidisciplinary team.
- Manage projects, resources, and budgets.
- Ensure product quality and regulatory compliance.
- Collaborate with stakeholders and represent the organization in the industry.
- Monitor and report on performance metrics.

Knowledge and experience

- Minimum of 10 years of experience in the medical technology industry, with at least 5 years in a leadership role.
- Proven track record of successfully leading and managing innovative medical technology projects and teams.
- Strong understanding of the medical device lifecycle, including design, development, regulatory approval, and commercialization.
- Excellent leadership, communication, and interpersonal skills.
- Strategic thinker with a strong business acumen and ability to translate technological advancements into business opportunities.
- Experience with regulatory bodies such as the FDA, EMA, and other global regulatory agencies.
